8 TIRES

All the other formula categories except Formula Fords, will use Hankook tires, distributed by the Promoter of Formula Academy Finland.

9 STARTING PROCEDURE

Ten minutes before the start of the formation lap the pit exit will be opened and cars will be permitted to leave the pit lane to cover one reconnaissance lap. At the end of this lap, they will stop on the grid in starting order with their engines stopped.

Five minutes before the start of the formation lap the pit lane exit will be closed. Any car which is still in the pit lane can start from the end of the pit lane. All such cars may then join the race once the whole field has passed the end of the pit lane for the first time after the start.

The approach of the start will be announced by signals shown minute board/lights. When the three-minute signal is shown, everybody except drivers, officials and team technical staff must leave the grid.

When the one-minute signal is shown, engines should be started, and all team personnel must leave the grid by the time the 15 second signal is given taking all equipment with them. If any driver needs assistance after the 15 second signal, he must raise his arm.

When the green lights are illuminated, the cars will begin the formation lap with the pole position driver leading. When leaving the grid all drivers must respect the pit lane speed limit until they pass pole position.

During the formation lap practice starts are forbidden and the formation must be kept as tight as possible.

Overtaking during the formation lap is only permitted if a car is delayed and cars behind cannot avoid passing it without unduly delaying the remainder of the field. In this case, drivers may only overtake to re-establish the original starting order.

When the cars come back to the grid at the end of the formation lap, they will stop on their respective grid positions, keeping their engines running. There will be a standing start.

Once all the cars have come to the grid, the five second sign will appear. After, there will be red lights appearing one by one until there are five red lights showing. The race will be started by extinguishing all red lights. In case of exceptional start light system, drivers will be informed at the drivers' briefing.

Unless specifically authorised by the race director, during the start of a race the pit wall must be kept free of all persons with the exception of officials and fire marshals.

10 FINISH

The end-of-race signal (chequered flag) will be given at the Line as soon as the leading car has covered the full race distance. After receiving the end-of-race signal all cars must proceed on the circuit directly to the parc fermé without any unnecessary delay without overtaking (unless clearly necessary).

Only those officials charged with supervision may enter the parc fermé. No intervention of any kind is allowed there unless authorised by such officials.

The parc fermé shall be held in the own tents/boxes of the race cars unless otherwise announced.

The drivers finishing the races in 1st, 2nd and 3rd positions must attend the prize-giving ceremony on the podium after each race, or after each race day, depending on the event procedure.
